[www.tidewaterlumberinc.com](http://www.tidewaterlumberinc.com)

Tidewater Lumber and Moulding has been in business for over 25 years. Ed Voorhees started Tidewater by providing value added services to lumber such as planing, ripping, and moulding. Today we stock over 25 species of lumber.

We manufacture many different products such as architectural mouldings, flooring, paneling, decking, and flooring accessories. We also distribute lumber and plywood to cabinet makers and custom furniture builders.

We deliver within a 150 mile radius with our own fleet of trucks, and anything out of our delivery area is shipped on a flatbed or LTL. We also have great discounts available on rush orders.

## FLOORING

Tidewater mills the highest quality lumber from around the world, producing authentic plank floors. A plank floor is wider in width and longer in length than a strip floor (which is 2 1/4" and only 6" - 7' in length). Tidewater's floors are so long, that the ends are squared but do not need to be end matched.

Most homes built today have such large rooms that the wider floors are actually more proportionate to the scale of the rooms. Our floors are 3/4" thick and are 3", 4", 5", and 6" wide. The lengths range from 2' - 16'. All floors are grooved on the back to help prevent cupping. The lumber is kiln dried to 6-9% moisture content.

We offer two grades of flooring. The first is Rustic, which will have tight knots and more color variation - such as mineral streaking. The second is Select, which is milled from the highest grade of lumber available. Select Flooring will have very few knots, if any, and more consistent color.

## DECKING

### WHAT IS IPE?

Tidewater Lumber and Moulding supplies Brazilian Ipe decking. Ipe is a South American Hardwood, and when we say hard - we mean HARD! It has a Janka Hardness Rating of 3,684. In comparison, red oak is rated 1,290. Cedar is rated 900. Ipe is estimated by the U.S. Forest Laboratory to last 25 years or more. It is rated Class B by the NFPA and is resistant to fire and insect infestation. There are virtually no knots or defects in the decking boards. If it is oiled once a year, it will maintain a rich, warm color. If it is not oiled, Ipe will weather to a beautiful silver gray, much like teak furniture.

### ACCESSORIES

D-MEZ	Memzers
D-SS214	Stainless Steel Screws (1 Box = 100 sq. ft.) 2 1/4"
D-SS158	Stainless Steel Screws (1 Box = 100 sq. ft.) 1 5/8"
D-EW	End Wax (1 Quart)
D-DM100	Deckmaster 100 Pack (covers 250 sq. ft.)
D-DM10	Deckmaster 10 Pack (covers 25 sq. ft.)

## TIMBERS

Most of our timbers come rough cut and green. We primarily keep cypress and cedar timbers, both of which are rot resistant, making them ideal for outdoor timber applications. We also carry eastern white pine and oak timbers.

Tidewater has also partnered with Mountain Works Custom Home Design and Toe River Cabins to form Dovetail Cabins, LLC. We provide ready-to-order authentic dovetail framed cypress log cabin kits. For more information, contact Tidewater, or visit: [www.dovetailcabins.com](http://www.dovetailcabins.com)
